

Instructions for creating a pamphlet

- Take a piece of construction paper and turn it landscape (the long side is laying flat).
- Now fold it into three equal pieces
- The first page will be your title page. It should answer these questions
 - What category of animal (ex: Mollusks)
 - How many species are in the category (ex: 80,000 species)
 - Where does the animal live (ex: land and water)
 - Examples of animals
 - Examples of the animals (Ex: clams, snails, and squids)
- Pages 2-4 will be informational. It will answer the questions
 - How the animals breathe (ex: gills in water, lungs on land)
 - How the animals reproduce (ex: lay eggs)
 - Interesting fact (ex: mollusks often only have one large muscle)
 - Interesting fact (ex: Mollusks are known for their self-defense)
 - Any other interesting facts (as many as your heart desires)
 - Include drawings or pictures of your animals if you can
